

## How can you pay electronic tolls?

In the electronic tolls there are no cabins for manual payment. The easy way to pay is by using an electronic device using a payment method. Other way is to use post payment (payment after the passage, with a raise of cost).

## What is an electronic device?

There are three electronic devices:

- Electronic device Via Verde
- Electronic device of car's registration (**dem**)
- Temporary electronic device (**dt**) with renewable temporary validity

Each device is used the same way that Via Verde, and must be placed in the windscreen of your vehicle.

## Which payment methods exist in electronic devices?

There are three payment methods:

- Automatic payment in tolls, that are billed in your bank account; this method can be used both by Via Verde, and **dem**.
- Prepayment with user identification: the user can pay before pass the tolls (with money, via ATM or homebanking); it works the same way as the mobile phones; this method can be used both by Via Verde, and **dem**.
- Anonymous prepayment: it works like the prepayment, but doesn't require the user identification; this method is used in **dt** (prepayment with validity of 90 days).

## Where can I buy the electronic devices?

You can buy all the devices in mail post offices. The Via Verde devices also can be bought in Via Verde shop (<http://www.viaverde.pt>).

## How does post payment (payment without electronic devices)?

Every time you pass in a toll, is taken a picture of your vehicle registration number, with is associated the value to pay.

After the passage you got 5 useful days to pay, and you must go to a mail post offices or to a payshop, indicating your vehicle registration number. If you don't pay within the 5 days, you will pay a fine and you will be advised at your home address.

## Is there any type of discount or exemption?

Yes. For the vehicles registred in any country covered by the SCUT's, the first 10 passages in each month are free, and the rest have an 15% discount.

To have this benefit, you need to have an electronic device that guarantee the association of your vehicle registration number. If you already have Via Verde, you don't need to acquire other devices, you just need to associate you vehicle registration number to your device, in Via Verde shops.

## How can we benefit of discounts and exemptions?

You must prove your vehicle address with a title land registration or a registration certificate.

In case of vehicles leasing or similar, you must prove the statement of the rental and identify the name and address of the lessee.

## And the vehicles with foreign vehicle registration number?

The vehicles with foreign vehicle registration number must always use and electronic device.

If you are an regular user, you can buy and electronic device Via Verde with automatic payment.

If you are a casual visitors, you must rent a **dt**, paying with credit card or with pre-payment method.
